

PMASUP236 - Operate vehicles in the field

Delivered by **Expert Training Group** in partnership with **Advanced Driver Training Centre**, this unit covers the skills and knowledge required to prepare and operate vehicles and related equipment to patrol pipelines or otherwise drive across a variety of terrains and applies to operators who are required to check their vehicle daily for damage, ensure fuels and lubricant levels are maintained, effect minor repairs, prepare and maintain field equipment, and communicate with their base station.

Duration of the course: 1 day or 2 days depending on the client's need.

Nationally accredited unit:

PMASUP236 - Operate vehicles in the field

Widely regarded by many government and Emergency Services organisations as one of the most current 4WD course available. This course does include recovery.

Operators must have the appropriate class of driver's licence before taking charge of the vehicle.

Please contact **ADTC on 1300 866 156 or email at admin@advanceddrivertraining.com.au** for a quotation to provide training for your employees in your company.
